MANAGEMENT DISCUSSION AND ANALYSIS

A) Steel

I) Industry Structure and Developments

♦ **World Steel Scenario**

The global steel industry has seen an accelerated growth over the years and is expected to grow even further in the times to come.

- The **world crude steel production** has increased to around 1,689 Million Tonnes (MT) in the year 2017 as per the data provided by World Steel Association, China being the top-most steel producing nation.
- The **world apparent steel use per capita** reached the mark of 214.5 kilograms for the year 2017.

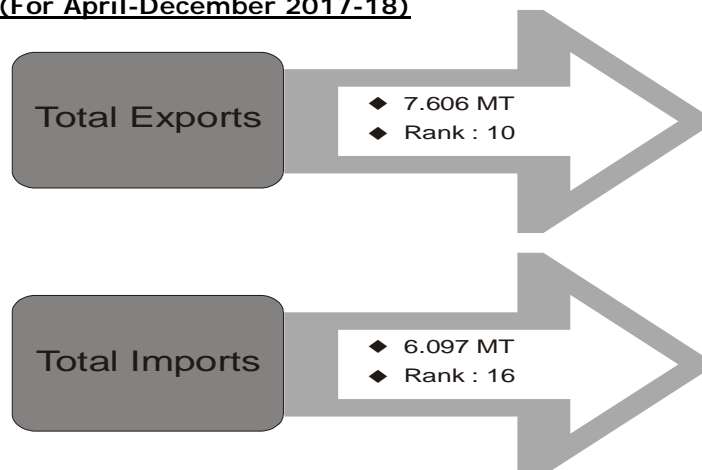

Steel consumption also shows a strong link with the economic growth, for steel has become an essential material in almost every aspect of the economy, right from infrastructure, transportation to food packaging and consumption.

Global steel sector has over the years seen a significant growth pattern, together with several challenges and shortcomings which are on the verge of becoming the strength of the industry in the near future.

♦ **Indian Steel Scenario**

- India has once again retained **Third Position** among the **major steel producing countries** with a crude steel production of **101.4 MT** in the year 2017 and based on the growth patterns in the industry over the years, it is expected to become the second largest producer of crude steel soon.
- The **apparent steel use per capita** has also increased, the same being **65.2 kilograms** for the year 2017 as per the data provided by World Steel Association.
- The steel sector contributes to over 2% of the Country's GDP and provides employment to around 25 Lacs individuals in the steel and allied sectors.

Indian Export Related Data (For April-December 2017-18)

National Steel & Agro Industries Ltd.

Major Initiatives by the Ministry of Steel for Indian Steel Sector

II) Opportunities and Threats

♦ Opportunities

- India is expected to become the second largest producer of steel in the world.
- Exports stood at 7.606 MT (April-December 2017-18), a growth of 52.9% compared to last year. India was a net exporter of total finished steel. Growth in exports ensures greater access to far out markets.
- Intention of Government to increase funding in infrastructure, affordable housing (Prime Minister Awas Yojana), strengthening of Real Estate norms through 'Real Estate (Regulation and Development) Act, 2016' etc. will generate positive demand for steel.
- In line with Central Government's announcement of various road/rail infrastructure projects, the market for local manufacturers is expected to improve.
- Two **National landmark policies** have been rolled out by the government –

1) **National Steel Policy 2017**

Expected Impact:

- a. India to be world leader in energy efficiency and sustainability.
- b. Global standards in Industry safety and health.
- c. Domestically meet the entire demand of high grade automotive steel, electrical steel, special steel and alloys.

2) **Policy on Preference to Domestically Manufactured Steel Products**

Objective:

- a. To provide a level playing field for the domestic manufacturers.
- b. Expansion of private sector in steel making industry would provide opportunity for medium scale industries.
- c. The Company expects to hit on the opportunities provided by the economy.

National Steel & Agro Industries Ltd.

♦ **Threats**

- Improper supply-demand balance.
- Depletion of high quality raw materials required for production of steel.
- Environmental concerns.
- Dumping of excess inventory in other countries by countries producing steel in abundance.

III) Outlook – Steel Sector

- Post the rollout of new Steel Policy in 2017, forex of ₹ 5,000 crores was saved since last year while around 24 MT of crude steel capacity was added during past four years.
- At the current pace and outlook of the industry, steelmaking capacity is expected to reach 150 MT mark by 2020.
- The policy aims at generating additional employment for 36 Lacs people directly or indirectly in the sector.
- Infrastructure, oil and gas and automotives are expected to drive the growth of the industry.
- Identification of the issue of Non-Performing Assets (NPAs) has helped in efficient steps to be taken to resolve them on timely basis.
- Ministry of Steel also plans to set up ‘**Steel Research and Technology Mission**’ in India to promote R&D activities in the sector.
- Government initiatives such as ‘Make in India’ and ‘Smart City Mission’ have further made the industrial environment favourable for the steel industry.
- There are opportunities available in the industry provided by the Indian economy to take advantage of and grow further.

B) Agro Business

I) About the Industry

India is an agriculture centred economy and one of the highest-ranking countries in production volume for various commodities like rice, cotton, spices, pulses etc. The agricultural sector plays a vital role in the Indian economy, its growth and development.

There has been a trend of global trade in agro commodities and the same has gained pace over time. The Company continues to be an importer of pulses and beans and trader of yellow peas and other pulses.

Agriculture sector all over the world has seen a lot of innovative developments including organic productions and the same has impacted the trading as well, resulting in increasing demand of quality products across the globe.

II) Outlook

Global demand for food is estimated to double by 2050.

However with overall market growth projected to be slow, agricultural trade is expected to expand at about half the rate of the previous decade.

For most commodities, a constant share of production continues to be traded on world markets.

If a good monsoon happens, it adds to the benefit of the agro industry as better yields would foster agro trading at global level.

III) Risks and Concerns

The direction of commodity prices for trading purpose is difficult to predict.

Good weather and good growing seasons lead to excess supply while poor yields lead to increase in prices.

Agro trading is a cyclical business; every commodity having its own cyclical pattern.

There also arises a need for agricultural commodity risk to be managed properly. Naturally, agricultural commodities in general are prone to spoilage and their prices are affected by several factors including transportation and storage.

Thus all such factors are equally to be taken into consideration for agro trading.

Government policies are concerned taking corrective steps as and when necessary.

Due to back to back production boom, product prices have seen a sharp decline.

Government started procurement through agencies like 'NAFED - National Agricultural Cooperative Marketing Federation of India Ltd' and 'FCI – Food Corporation of India' in the last two years, which has resulted in piling up of large stock of pulses.

Further, government has in the recent past focused on restrictive trade and tariff policies to choke supplies from abroad by imposing heavy import duties.

As a trader, the Company faces the fluctuation risk of price and currencies as well.

C) Segment Wise or Product Wise Performance

The Segments identified by the Company are as under :

- 1) Manufacturing Segment
- 2) Trading Segment

The Segment wise performance in detail is given in Note 35 to the audited accounts of the Company.

National Steel & Agro Industries Ltd.

D) Internal control systems and their adequacy

The Company maintains an adequate and fair system of internal control based on well established policies and procedures designed for transparent operations. The management is regular in reviewing, on periodic basis, issues and concerns that have or could have an effect on the operations, functioning or performance of the Company.

Internal Audit is an ongoing activity in the Company and the internal audit team so formed regularly reports to the members of the Audit Committee in their meeting.

E) Material developments in Human Resources/ Industrial Relations front including Number of People employed

Human resource is considered as one of the key assets of an organisation as human resource is unique to a particular organisation and plays an active role in its growth.

The Company provides adequate opportunity for training and learning to the employees.

The Company takes responsibility for effective management of careers of individuals to make them expert in their respective fields.

The team is strongly motivated to work on their abilities and deliver better results.

The total number of permanent employees on roll as on 31st March, 2018 was 565.

F) Discussion on financial performance with respect to operational performance

During the year under review, the Company's Revenue from Operations has been ₹ 4,24,190 lacs as against ₹ 4,11,403 lacs in the previous year.

The Loss Before Tax has been ₹ 22,376 lacs as against ₹ 8,666 lacs in the previous year.

The Loss After Tax has been ₹ 14,289 lacs as compared to a loss of ₹ 8,212 lacs for the previous year.

Operational Loss for the year under review has increased to ₹ 22,376 lacs as compared to ₹ 8,666 lacs in the previous year.

The Company has been facing various issues relating to erosion of net worth and increase in Current Liabilities. However the Management is taking appropriate steps to rectify the issues by improving the operational performance of the steel business, having tie-ups with different companies for job work and implementing a restructuring exercise among others.

Also, the improved market condition in steel industry over the globe would further help your Company to regain its market share in subsequent years.

G) Health, Safety, Security and Environment

Health, safety, security and environment have always been an integral part of our value system. Our operations are driven by the value system so established and hence are in compliance with the norms of health, safety, security and environment.

The Company has been regularly putting efforts for conservation of energy and resources.

H) Cautionary Statement

This Management Discussion and Analysis Report, giving a brief profile of the Company along with its vision, mission, objectives, performance and future prospects and also reflecting the scenario of the industry at domestic and global level, may consist of **"forward looking statements"** which involve a number of risks and uncertainties that could cause actual results to differ materially from those stated. Important factors that could make a difference to the Company's operations include external economic conditions affecting demand/supply or influencing price conditions in the market in which the Company operates, changes in regulatory regime and other incidental factors.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (I) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of National Steel And Agro Industries Limited ("the Company") as of March 31, 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these Ind AS financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these Ind AS financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these Ind AS financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these Ind AS financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these Ind AS financial statements.

National Steel & Agro Industries Ltd.

Meaning of Internal financial Controls over financial Reporting with reference to these Standalone IND AS Financial Statements

A Company's internal financial control over financial reporting with reference to these Ind AS financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting with reference to these standalone Ind AS financial statements includes those policies and procedures that;

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting with reference to these IND AS Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these Ind AS financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these Ind AS financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these Ind AS financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting with reference to these Ind AS financial statements and such internal financial controls over financial reporting with reference to these Ind AS financial statements were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

National Steel & Agro Industries Ltd.

SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity :

National Steel and agro Industries Limited is a public limited company and has steadily grown to become a Goliath during this time, it has built an installed capacity of around 3, 80,000 TPA galvanised steel. Headquartered in Mumbai, it has a pan-India presence through an interconnected network of branches and various warehouses. It holds a pioneering position in the steel industry. It manufactures and exports steel from central India. NSAIL has diversified interests across industries such as Steel, Agriculture, and Power. An ISO 9001: 2008 & 14001: 2004 certified company, NSAIL is primarily known for its flat steel products (Cold Rolled Coil, Galvanised Corrugated Sheets, Colour Coil & Pre-painted Profile sheets, etc.).

B. Basis of preparation and presentation of financial statements :

(a) Statement of Compliance

The Company's financial statements for the year ended 31st March 2018 have been prepared in accordance with Indian Accounting Standards (Ind AS) as per Companies (Indian Accounting Standards) Rules, 2015, and Companies (Indian Accounting Standards) Amendment Rules, 2016, notified, under Section 133 of Companies Act, 2013 ("the Act") and other relevant provisions of the Act.

The Company's financial statements up to and for the year ended 31 March 2017 were prepared in accordance with the Companies (Accounting Standards) Rules, 2006, notified under Section 133 of the Act and other relevant provisions of the Act.

As these are the Company's first financial statements prepared in accordance with Indian Accounting Standards (Ind AS), Ind AS 101, First-time Adoption of Indian Accounting Standards has been applied. An explanation of how the transition to Ind AS has affected the previously reported financial position, financial performance and cash flows of the Company.

(b) Functional and Presentation Currency

These financial statements are presented in Indian Rupees (Rs.), which is also the Company's functional currency.

(c) Basis of Measurement

The financial statements have been prepared on the basis of going concern under the historical cost basis convention using the accrual method of accounting except for certain financial assets and liabilities and defined benefit plan assets measured at fair value.

(d) Use of Estimates

The preparation of financial statements requires management to make estimates assumptions and judgments that affect the reported balances of assets and liabilities and disclosures as at the date of the financial statements and the reported amounts of income and expenditure for the periods presented. Actual results may differ from the estimates considering different assumptions and conditions.

Estimates and underlying assumptions are reviewed on ongoing basis. Impact on account of revisions to accounting estimates are recognized in the period in which the estimates are revised and future periods are affected.

(e) Judgments

Information about judgments made in applying accounting policies that have the most significant effects on the amounts recognized in the financial statements is included in the following notes:-

Note 1 A :- Useful life of Property, plant and equipment

Note 1 M :- Defined benefit obligation

Note (f) :- Estimated Fair Values of Unlisted Shares

Note 1(N) :- Recognition of Deferred taxes

National Steel & Agro Industries Ltd.

(f) Measurement of Fair Values

The Company's accounting policies and disclosures require the measurement of fair values, for both financial assets and liabilities.

Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- ♦ In the principal market for the asset or liability, or
- ♦ In the absence of a principal market, in the most advantageous market for the assets or liability.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy that categorizes into three levels, described as follows, the inputs to valuation techniques used to measure value, the fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and lowest priority to unobservable inputs (Level 3 inputs).

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

1. Significant Accounting Policies :

A) Property, Plant and Equipment (PPE)

(i) Recognition and Measurement

PPE is measured on initial recognition at cost net of taxes/duties, credits availed, if any, and subsequently carried at cost less accumulated depreciation and accumulated impairment losses, if any.

The cost of PPE includes borrowing costs directly attributable to acquisition, construction or production of qualifying assets. Qualifying assets are assets which necessarily take a substantial period of time to get ready for its intended use.

Machinery spares that meet the definition of PPE are capitalized and depreciated over the useful life of the principal item of the asset.

(ii) Subsequent expenditure

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

National Steel & Agro Industries Ltd.

(iii) Derecognition

An item of PPE is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the item. Any gain or loss arising on disposal or retirement of item of PPE is determined as the difference between the sale proceeds and the carrying amount of the item and is recognized in the statement of profit or loss in the period in which the PPE is derecognized.

B) Intangible Assets

(i) Acquired intangible

Intangible assets are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortisation and any accumulated impairment losses.

(ii) Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure **on internally generated goodwill and brands, is recognised in profit or loss as incurred.**

(iii) Amortisation

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values over their estimated useful lives using the straight-line method, and is included in depreciation and amortisation in Statement of Profit and Loss.

Intangible assets are amortised over a period of 10 years for technical know-how and 3 years for others.

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

C) Investment Property

Investment property is the property either to earn rental income or for capital appreciation or for both but not for sale in ordinary course of business, use in production or supply of goods or services or for administrative purpose. Investment properties are measured initially at cost, including transaction costs.

Investment properties are derecognized either upon disposal or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in profit or loss in the period in which the property is derecognized.

D) Transition to Ind AS

On transition to Ind AS, the Company has elected to use the exemption available under Ind AS 101 to continue with the carrying value of all its PPE & Investment Property recognized as at 1st April 2016 (transition date) measured as per the previous GAAP and use that as its deemed cost as at date of transition.

E) Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method, and is recognised in the statement of profit and loss.

National Steel & Agro Industries Ltd.

The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

Asset	Management estimate of useful life	Useful life as per Schedule II of the Companies Act, 2013
Plant & Machinery	20 Years	20 Years
Building	30 Years	30 Years
Office equipments and Air condition	5 Years	5 Years
Furniture and fixtures	10 Years	10 Years
Computers & Printers	3 Years	3 Years
Vehicles- Motor car	8 Years	8 Years

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. Based on internal assessment and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (up to) the date on which asset is ready for use (disposed off).

F) Impairment of Non – Financial Assets

The carrying amounts of the Company's tangible and intangible assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated in order to determine the extent of the impairment loss, if any.

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or the cash-generating unit for which the estimates of future cash flows have not been adjusted. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

An impairment loss is recognised in the profit or loss if the estimated recoverable amount of an asset or its cash generating unit is lower than its carrying amount. Impairment losses recognised in respect of cash-generating units are allocated to reduce the carrying amount of the other assets in the unit on a pro-rata basis.

In respect of other asset, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

National Steel & Agro Industries Ltd.

G) Foreign Currency Transactions

Transactions denominated in foreign currencies; are normally recorded at the exchange rate prevailing on the date of transaction.

Monetary items denominated in foreign currencies at the year end are re-measured at the exchange rate prevailing on the balance sheet date. Non monetary foreign currency items are carried at cost.

Any income or expense on account of exchange difference either on settlement or on translation; if any, is recognized in the Profit And Loss Statement.

H) Financial Instruments

(a) Financial Assets

Initial Recognition and Measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Financial assets are classified, at initial recognition, as financial assets measured at fair value or as financial assets measured at amortized cost.

Subsequent Measurement

For the purpose of subsequent measurement financial assets are classified into two broad categories:

- ◆ Financial Assets at Fair Value
- ◆ Financial Assets at Amortized Cost

Where assets are measured at fair value, gains and losses are either recognized entirely in the statement of profit and loss or recognized in other comprehensive income.

A financial asset that meets the following two conditions is measured at amortized cost.

- ◆ **Business Model Test:** The objective of the company's business model is to hold the financial asset to collect the contractual cash flows.
- ◆ **Cash Flow Characteristics Test:** The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

A financial asset that meets the following two conditions is measured at fair value through OCI.

- ◆ **Business Model Test:** The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.
- ◆ **Cash Flow Characteristics Test:** The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payment of interest on the principal amount outstanding.

All other financial assets are measured at fair value through profit and loss.

All equity investments are measured at fair value in the balance sheet, with value changes recognized in the statement of profit and loss, except for those equity investments for which the entity has elected irrecoverable option to present value changes in OCI.

National Steel & Agro Industries Ltd.

Impairment of financial assets

The company assesses impairment based on Expected Credit Losses (ECL) model at an amount equal to 12 months expected credit losses, or, lifetime expected credit losses, depending upon whether there has been a significant increase in credit risk since initial recognition.

However, for trade receivables, the company does not track the changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

(b) Financial Liabilities

All financial liabilities are initially recognized at fair value and, in case of loans and borrowings and payables, net of directly attributable transaction costs.

Financial liabilities are classified as measured at amortized cost or fair value through profit and loss (FVTPL). A financial liability is classified as FVTPL if it is classified as held for trading, or it is a derivative or is designated as such on initial recognition. Financial Liabilities at FVTPL are measured at fair value and net gain or losses, including any interest expense, are recognized in statement of profit and loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in statement of profit and loss. Any gain or loss on derecognition is also recognized in statement of profit and loss.

I) Derivatives

The company holds derivative financial instruments in the form of Future Contracts to mitigate the risk of changes in exchange rates on foreign currency exposures. The counterparty for these contracts are banks.

Although these derivatives constitutes hedges from an economic perspective, they do not qualify for hedge accounting under Ind AS 109 and consequently are categorized as financial assets or liabilities at fair value through profit or loss. The resulting exchange gain or loss are included in other income and attributable transaction costs are recognized in Statement of profit or Loss when incurred.

J) Inventories

Items of Inventories are measured at lower of cost and net realizable value after providing for obsolescence and damage, if any. Cost of inventories comprises of cost of purchase, cost of conversion and other costs incidental to purchase in bringing them to their respective present location and condition. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

K) Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable, and represents amounts exclusive of excise duty receivable for goods supplied, stated net of discounts, returns and value added taxes. The company recognises revenue when the amount of revenue can be reliably measured; when it is probable that future economic benefits will flow to the entity; and when specific criteria have been met for each of the Company's activities, as described below.

National Steel & Agro Industries Ltd.

Sale of Goods and services

Sales are recognised when the significant risks and rewards of ownership of the goods are transferred to the buyer as per terms of contract. Income and fees from services are accounted as per terms of relevant contractual agreements/arrangements.

Interest Income

Interest income is recognised on accrual basis as per the terms of relevant contracts or by using the effective interest method, where applicable.

Dividend income

Dividend income is recognised when the right to receive payment is established.

L) Lease Accounting

Leases, where the lessor retains, substantially all the risk and rewards incidental to ownership of the leased assets, are classified as operating lease. Operating lease expense is recognized in the statement of profit and loss on a straight-line basis over the lease term. In respect of assets given on lease, lease rentals are accounted on accrual basis in accordance with the respective lease terms.

M) Employee Benefits

Short-term employee benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and are recognized in the statement of Profit and Loss as an expense at the undiscounted amount on an accrual basis.

These benefits include compensated absences such as paid annual leave and performance incentives which are expected to occur within twelve months after the end of the period in which the employee renders the related services.

The cost of compensated absences is accounted as under:

- a) In case of accumulated compensated absences, when employees render service that increase their entitlement of future compensated absences, and
- b) In case of non-accumulating compensated absences, when the absences occur.

Post employment benefits

Defined Contribution Plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards Government administered provident fund and Employee State Insurance scheme. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

National Steel & Agro Industries Ltd.

Defined Benefit Plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses are recognised in OCI. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Other long-term employee benefits

The Company's net obligation in respect of long-term employee benefits other than post-employment benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. The obligation is measured on the basis of an annual independent actuarial valuation using the projected unit credit method. Remeasurements gains or losses are recognised in profit or loss in the period in which they arise.

N) Income Taxes

Income tax expense comprises of current tax expense and the net change in the deferred tax asset or liability during the year. Current and deferred taxes are recognized in statement of Profit and Loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, current and deferred tax are also recognized in other comprehensive income or directly in equity, respectively.

Tax expenses comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to the tax authorities, using the applicable tax rate. Deferred Income tax reflect the current period timing difference between taxable and accounting income for the period and reversal of timing differences of earlier years/period. Deferred tax assets are recognized only to the extent that there is a reasonable certainty that sufficient future income will be available except that deferred tax assets, in case there are unabsorbed depreciation or losses, are recognized if there is virtual certainty that sufficient future taxable income will be available to realize the same.

Deferred tax assets and liabilities are measured using the tax rates and tax law that have been enacted or substantively enacted by the Balance Sheet date.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for

National Steel & Agro Industries Ltd.

taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised. Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable Company, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

O) Provisions, Contingent Liabilities and Contingent Assets

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assumptions of the time value of money and the risks specific to the liability. The unwinding of discount is recognized as finance cost.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received, and the amount of the receivable can be measured reliably.

A provision for onerous contract is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract.

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote.

P) Earnings per share

The Company presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the

National Steel & Agro Industries Ltd.

Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding after adjusting for the effects of all potential dilutive ordinary shares.

Q) Government Grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to revenue, it is recognised in the statement of profit and loss on a systematic basis over the periods to which they relate. When the grant relates to an asset, it is treated as deferred income and recognised in the statement of profit and loss on a systematic basis over the useful life of the asset.

R) Cash flow statement

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated. The company considers all highly liquid investments that are readily convertible to known amounts of cash to be cash equivalents.

Amendment to Ind AS 7

Effective April 1, 2017, the Company adopted the amendment to Ind AS 7, which require the entities to provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes, suggesting inclusion of a reconciliation between the opening and closing balances in the Balance Sheet for liabilities arising from financing activities, to meet the disclosure requirement. The adoption of amendment did not have any material impact on the financial statements.

S) Ind AS issued but not effective

Ind AS 115- Revenue from Contract with Customers

On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018. In which, it has notified the Ind AS 115, Revenue from Contract with Customers. The objective of this Standard is to establish the principles that an entity shall apply to report useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from a contract with a customer. The core principle of this Standard is that an entity shall recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

This standard will come into force from April 1, 2018. As per the evaluation of the management of the company, the effect on adoption of Ind AS 115 will not be material.

Appendix B to Ind AS 21, Foreign currency transactions and advance consideration:

On March 28, 2018, Ministry of Corporate Affairs ("MCA") has notified the Companies (Indian Accounting Standards) Amendment Rules, 2018. In which, it has notified Appendix B to Ind AS 21, Foreign currency transactions and advance consideration, which clarifies the date of the transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in a foreign currency. This amendment will come into force from April 1, 2018. As per the evaluation of the management of the company, the effect of this amendment will not be material.

Note 29 : Going Concern

As at 31st March, 2018 the Company's net worth is fully eroded i.e.net worth as on 31st March'2018 amounts to ₹ -514.39 crore. Also, subsequent to the Balance Sheet date, there is devolvement of Letter of Credits , the Current Liabilities have exceeded the Current Assets by ₹ 973.68 crore and there is loss of ₹ 141.14 crore for the year ended 31st March'2018. However the management is taking appropriate steps to rectify these issues by improving the operational performance of the steel business, having tie-ups with different companies for job work, implementing a restructuring exercise, improving the working capital deficit by negotiating with lenders to reschedule certain debt so that the maturity of the same would be extended beyond 1 year. Further due to improved market conditions in steel industry over the globe, the management is confident to regain its position & market share in subsequent years. In view of the above, the results have been prepared on going concern basis.

Note 41 : Financial Instrument - Accounting classifications and fair values measurements

The fair value of the assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in forced or liquidation sale.

The following methods and assumptions were used to estimate the fair value:

1. Fair value of cash and short-term deposits, trade and other short term receivables, trade payables, other current liabilities, short term loans from banks and other financial instruments approximate their carrying amounts largely due to the short term maturities of these instruments.
2. Financial instruments with fixed and variable interest rates are evaluated by the company based on parameters such as interest rate and individual credit worthiness of the counterparty. Based on this evaluation, allowance are taken to the account for the expected losses of these receivables. The company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1 : Quoted (unadjusted) prices in active markets for identical assets or liabilities

Level 2 : other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3 : techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels of in the fair value hierarchy :

Trade receivables

Customer credit risk is managed as per Company's established policy, procedures and control relating to customer credit risk management. Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Company grants credit terms in the normal course of business.

An impairment analysis is performed for all major customers at each reporting date on an individual basis. In addition, a large number of minor receivables are grouped into homogenous group and assessed for impairment collectively. The calculation is based on historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several industries and operate in largely independent markets.

Bank balances and deposits with banks

Credit risk from balances with banks is managed by the company's finance department as per Company's policy. Investment of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are reviewed by the Company's Board of Directors on an annual basis, and may be updated throughout the year subject to approval of the Company's Board of directors. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

(ii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include estimated interest payments and exclude the impact of netting agreements.

(iii) Market risk

Market risk is the risk of loss of future earnings, fair value or future cash flows arising out of change in the price of a financial instrument. These include change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loans and borrowing. The company manages market risk through a risk management committee engaged in, inter alia, evaluation and identification of risk factors with the object of governing/mitigation them accordingly to company's objectives and declared policies in specific context of impact thereof on various segments of financial instruments.

Currency risk

The Company is exposed to currency risk to the extent that there is mismatch between the currencies in which sales, purchase are denominated and the respective functional currencies of Company. The Company has export sales primarily denominated in US dollars.

Exposure to Currency risk

The summary quantitative data about the Company's exposure to currency risk as reported to the management is as follows:

(₹ in Lacs)

	As at 31 March, 2018 USD	As at 31 March, 2017 USD
Export receivables	41.13	183.70
Overseas payables	(371.48)	(569.37)
Total	(330.35)	(385.67)

Foreign currency sensitivity

1% increase or decrease in foreign exchange rates will have the following impact on profit before tax.

National Steel & Agro Industries Ltd.

(₹ in Lacs)

	As at 31 March, 2018 USD	As at 31 March, 2017 USD
1% increase	(215.29)	(2,51.34)
Total increase/(decrease) in profit	(215.29)	(2,51.34)

A decrease of 100 basis points in the interest rates at the reporting date would have had equal but opposite effect on the amounts shown above, on the basis that all other variable remain constant.

(iv) Interest risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The entity's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

At the reporting date the interest rate profile of the Company's interest-bearing financial instruments was as follows:

(₹ in Lacs)

	As at 31 March, 2018	As at 31 March, 2017	As at 01 April, 2016
Fixed rate instruments

A decrease of 100 basis points in the interest rates at the reporting date would have had equal but opposite effect on the amounts shown above, on the basis that all other variable remain constant.

Note 43 : Explanation of transition to Ind AS

The Company has prepared its first financial statements in accordance with Ind AS. For the year ended 31 March 2016, the Company had prepared its financial statements in accordance with Companies (Accounting Standards) Rules, 2006, notified under Section 133 of the Act and other relevant provisions of the Act.

The accounting policies set out in **Note no 1** have been applied in preparing the financial statements for the year ended 31 March 2018 including the comparative information for the year ended 31 March 2017 and the opening Ind AS balance sheet on the date of transition i.e. 1 April 2016.

In preparing its Ind AS balance sheet as at 1 April 2016 and in presenting the comparative information for the year ended 31 March 2017, the Company has adjusted amounts reported previously in financial statements prepared in accordance with previous GAAP. This note explains the principal adjustments made by the Company in restating its financial statements prepared in accordance with previous GAAP, and how the transition from previous GAAP to Ind AS has affected the Company’s financial position, financial performance and cashflows

There were no significant reconciliation items between cash flows prepared under Indian GAAP and those prepared under Ind AS.

Exemptions availed

Ind AS 101 allows first time adopters certain mandatory and voluntary exemptions from the retrospective application of certain requirements under Ind AS. The Company has applied the following exemptions:

Property, plant and equipment and intangible assets

As per Ind AS 101 Fair Value of all its property, plant and equipment and intangible assets as at the date of transition to Ind AS, measured as per previous GAAP have been treated as their deemed costs as at the date of transition.

Estimates

The estimates at 1st April, 2016 and as at 31st March, 2017 are consistent with those made for the same dates in accordance with Indian GAAP.

The estimates used by the company to present these amounts in accordance with Ind AS reflect conditions at 1st April, 2016, the date of transition to Ind AS and as of 31st March 2017.

Notes to reconciliation

(a) 4% Redeemable Cumulative Preference Shares

4% Redeemable Cumulative Preference shares classified as long Term financial liability as per Ind As 109. As a result provision for preference dividend has been shown under finance cost.

(b) Fair valuation as deemed cost of Property ,Plant and Equipment :

The company has considered fair value for Plant, Property & Equipment, as deemed cost in accordance with stipulation of Ind AS 101, with the resultant impact being accounted for in the reserves. The impact on deemed cost of Land, admeasuring 25.214 hectares situated in Madhya Pradesh, is an increase of ₹ 2,888 lacs. The impact on Building including Factory Shed, situated in Madhya Pradesh, is an increase of ₹9,295 lacs & the remaining useful life is 28 years. The impact on Plant & Machinery situated at factory is an increase of ₹35,126 lacs & the remaining useful life is 12 years. For this purpose, the management has relied upon the valuation report dated 01st April, 2016 submitted by M/S Mahesh Agrawal & Associates.

(c) Reversal of Prior Period item

The company had in the years, from FY 2005-06 to FY 2016 -17 issued debit notes to suppliers for rate differences, quality difference and quantity differences etc. However, the said debit notes were not accepted by the respective suppliers and were reversed in FY 2017-18. Since the above reversal results into an adjustment which is as per Ind AS 8 would be classified as a "Prior period adjustment", the same is accounted against retained earnings and comparative financial statements.

(d) Fair valuation of Investments

Investment in quoted Equity Shares and Mutual Fund has recognized at fair value through Profit & loss Account as per Ind AS 109.

National Steel & Agro Industries Ltd.

(e) Deffered Tax

The impact of transition adjustments together with Ind AS mandate of using Balance Sheet approach (against Profit & Loss approach in the previous Indian GAAP) for computation of deffered taxes has resulted in charge to the reserves, on the date of transaction, with consequential impact to the statement of Profit & Loss for the subsequent periods.

(f) MTM of forward contract

The Company has entered into Forward contract from economic perspective, the resulting loss has been recognised in Profit & Loss.

(g) Acturial gain on employee defined benefit obligaton

Under Ind AS, remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognised in other comprehensive income instead of profit or loss. Under the previous GAAP, these remeasurements were forming part of the profit or loss for the year.

44. The figures of previous year have been regrouped wherever necessary to confirm the Current years classification.

ANNEXURE TO NOTICE

Explanatory Statement as required by Section 102 of the Companies Act, 2013.

Item No. 4:

Pursuant to the provisions of Section 161(1) of the Companies Act, 2013 (the Act) any person appointed as an Additional Director of the Company can hold office only upto the date of ensuing Annual General Meeting. Since Mr. Ashutosh Upadhyay (DIN: 07885793) was appointed as an Additional Director of the Company w.e.f. 2nd May, 2018, his term of office would expire at ensuing Annual General Meeting and eligible for the appointment as a Director

The Company has received declaration from Mr. Ashutosh Upadhyay that he meets the criteria of independence as provided under Section 149(6) of the Companies Act, 2013. The Company has also received a Notice from Mr. Ashutosh Upadhyay in writing as prescribed under Section 160 of the Act, proposing his candidature for the office of Independent Director, not liable to retire by rotation, under Section 149 of the Companies Act, 2013. In the opinion of the Board, he fulfills the conditions for appointment as Independent Director, as specified in the Companies Act, 2013. A copy of the draft letter of appointment setting out the terms and conditions of appointment of Independent Director is available for inspection, without any fee, by the members at the Company's registered office during normal hours on working days upto the date of the AGM.

Further brief profile of Mr. Ashutosh Upadhyay is given as annexure to this notice. The Board recommends the resolution for approval of Equity Shareholders of the Company at Item No. 4 as an Ordinary Resolution.

Except Mr. Ashutosh Upadhyay and his relatives, none of the Directors or Key Managerial Personnel of the Company or their respective relative(s) is / are in any way concerned or interested, in passing of the resolution set out at Item No. 4 of the Notice.

Item No. 5:

In pursuance of Section 148 of the Companies Act, 2013 and Rule 14 of the Companies (Audit and Auditors) Rules, 2014, the Board of Directors (the Board) shall appoint an Individual, who is Cost Accountant in practice, or a firm of Cost Accountants in practice, as Cost Auditor on the recommendation of the Audit Committee, which shall also recommend remuneration for such auditor. The remuneration recommended by the Audit Committee shall be considered and approved by the Board and ratified by the Members.

On the recommendation of Audit Committee, the Board has considered and approved appointment of M. Goyal & Co., Cost Accountants (FRN 000051), Jaipur, for conducting of Cost Audit of the cost records maintained by the Company at a remuneration of ₹80,000/- (Rs. Eighty Thousand only) plus applicable tax and reimbursement of actual travel and out-of pocket expenses for the financial year ending 31st March, 2019.

National Steel & Agro Industries Ltd.

Accordingly, consent of Members is sought for ratification of remuneration payable to Cost Auditor for the financial year ending 31st March, 2019.

None of the Directors or Key Managerial Personnel(s) of the Company or their relative(s) is / are, in any way, concerned or interested financially or otherwise in the Ordinary Resolution set out at Item No. 5 of the Notice.

The Board recommends passing of the resolution as an Ordinary Resolution.

Item No. 6:

In view of the Business Expansion, Growing Operations, Long Term Working Capital and other approved corporate purposes permissible under applicable law, it is now proposed to increase the borrowing limits of the Company.

Pursuant to the provisions of section 180(1)(c) of the Companies Act, 2013, the Board of Directors shall not except with the approval of the Company in general meeting, borrow money, where the money to be borrowed, together with the money already borrowed by the company will exceed aggregate of its paid-up share capital and free reserves, apart from temporary loans obtained from the company's bankers in the ordinary course of business.

In terms of Special Resolution passed at the 28th Annual General Meeting held on 6th September, 2014 board is authorised to borrow any amount (apart from temporary loans obtained from the Company's bankers in the ordinary course of business), secured or unsecured, provided that the total amount which may be borrowed together with the amount already borrowed by the Company shall not exceed the sum of ₹1,000 Crore (Rs. One Thousand Crore Only) outstanding at any point of time.

Therefore, board proposed to increase the borrowing limits of the Company from the existing limit of ₹1,000 Crore (Rs. One Thousand Crores) to ₹1,500 Crores (Rs. One thousand five hundred Crores only);

The Board of Directors recommends the passing of this resolution as a Special Resolution.

None of the Directors or Key Managerial Personnel(s) of the Company or their relative(s) is / are, in any way, concerned or interested financially or otherwise in the Special Resolution set out at Item No. 6 of the Notice.

Item No. 7:

At the 28th Annual General Meeting of the Company held on 6th September, 2014, the Shareholder of the Company had given power to Board of Directors of the Company to create Charges/ Mortgages on, or sell or otherwise dispose of movable and immovable properties of the Company both present and future, for securing loan upto ₹1,000 Crore (Rs. One Thousand Crore only); The operation of the Company have increased substantially and in order to meet the growing fund requirement of the Company additional funds may be required by the Company to be raised by the creation of security on the movable / immovable assets of the Company.

National Steel & Agro Industries Ltd.

Pursuant to the provisions of section 180(1)(a) of the Companies Act, 2013 the Board of Directors of the Company shall not, except with the consent of members in the general meeting, create Charges/Mortgages on, or sell or otherwise dispose of movable and immovable properties of the Company both present and future, or of the whole or substantially whole of the undertaking. Therefore, board proposed to increase the borrowing limits of the Company from the existing limit of ₹ 1,000 Crore (Rs. One Thousand Crores only) to ₹1,500 Crores (Rs. One Five Thousand Crores only);

The Board of Directors recommends the passing of this resolution as a Special Resolution.

None of the Directors or Key Managerial Personnel(s) of the Company or their relative(s) is / are, in any way, concerned or interested financially or otherwise in the Special Resolution set out at Item No. 7 of the Notice.
